

ROSÉ WINE

Do not think pink is sweet and a drink for the girls, Rose has earned the name Brose over the last 12 months as the guys get past drinking something pink, A rosé is a type of wine that incorporates some of the colour from the grape skins, but not enough to qualify it as a red wine. Simply put it's a red wine made using white wine methods and can incorporate a number of varietals. As stated by Thomas Pastuszak 'Real men drink Pink'
